

INTRODUCING THE ALL NEW...

CO₂MMANDO AP[®]

ALL PNEUMATIC DRY ICE BLASTING MACHINE

NEW

Made in U.S.A.

Machine shown with aggressive fan nozzle (sold separately)

Machine Specifications:

Dimensions:

Length: 29" (737 mm)

Width: 19" (483 mm)

Height: 35" (889 mm)

Hopper Capacity: 30 lbs (13.6 kg)

Dry Ice Consumption: 0 - 425 lbs/hr (0-193 kg/hr)

Operating Range: 60-100 psi @ 85-185 CFM (5.2 m³)

Blasting Pressure: 50 - 125 psi (3.4-8.6 bar)

Compressed Air Connection: 3/4" JIC Fitting

Compressed air must be kept clean and dry.

A moisture separator is included on the machine.

Noise Level: 60 - 120 dB(A)

Noise level varies depending on blasting pressure, nozzle and material surface.

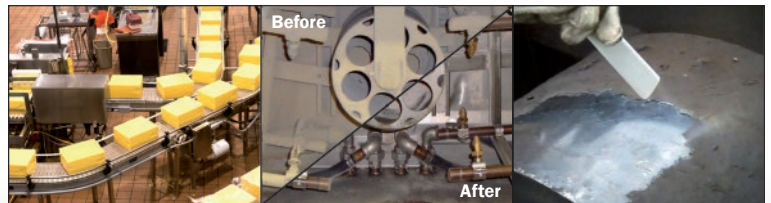

Ear and eye protection required.

AIR SUPERIORITY. POWERFUL ALL PNEUMATIC DRY ICE CLEANING

The all new **CO₂MMANDO AP** All Pneumatic Dry Ice Cleaning Machine is a portable dry ice blasting workhorse requiring only compressed air for operation. Built ready to tackle the toughest cleaning applications, it provides an economical and efficient way to clean a wide variety of surfaces using standard dry ice pellets. Featuring the Nu-Ice Age patent pending dry ice delivery system with freezeless operation, the CO₂MMANDO AP is reliable and ready to report for duty.

MACHINE FEATURES:

- All pneumatic operation - requires only a compressor that can provide 185 CFM of air
- Easy to use with minimal training required
- Compact size/airless tires provide easy transport & maneuverability
- Lightweight - can be moved up stairs by one person
- Low air consumption, high performance
- Patent pending freezeless ice delivery system prevents ice bridging that leads to hopper freeze-ups
- Adjustable blast pressure and pellet feed rate
- Durable enclosed body built for heavy duty industrial use
- Thermally insulated blasting gun handle will not freeze hands
- Each machine ships complete with a 25 ft (7.6 m) blasting hose, 40 ft (12 m) air supply hose, gun assembly, one round & one medium flow fan nozzle and ice scoop
